Winter

by P6 Anton Tsang

Winter is approaching
If you don't know where to go,
No problem, let me direct you.
The perfect place is the snow field.
Eager to see you there my friend, because I am the snowman.
Remember to come, can't wait to see you!

Winter

by P6 Bryan Li

Winter is here
Ice and snow everywhere
North Pole stands the coldest in winter
Tree leaves turn yellow, brown then turn to the ground
Europeans sit around the fire place to get warm
Roast turkey is the best treat for the season
Hurray! Winter is here!

Summer

by P6 Ngai Kai Fung

Sunlight stays longer
Umbrellas pose to give us shade
Much time to play
Much ice cream from Mum
Eating ice cream makes me feel so great
Ready to play all day
It's time for summer!

Easter

by P6 Ennis Lam

Easter was a time when Jesus died for us...
And prevailed death!
Someone hurt Jesus with whips...
They also jeered at Him. But Jesus never gave up.
Everyone does some wrong, here or there...so
Ready to confess and celebrate during EASTER!
Happy Easter!

My Chinese New Year Holiday

by P1 Kok Winona

I went to USA with my family. We stayed at LA's Hotel. We went to a museum. I saw so many dinosaurs, animals and space rockets. One of the space rockets was huge! I played in the snow too!

Today I went to play some games! I won so many toys! At night, we had a buffet. Then we went back to the hotel and I did my homework. We visited the Golden Gate Bridge. Now it's time to go back to Hong Kong and I lost my tooth!

My Dream Holiday Trip

by P6 Isaac Cheng

My dream holiday trip is to go to Switzerland because my mum told me that she studied there before and it is a place as beautiful as a picture.

It is a place famous for its snow mountains such as Mt. Matterhorn which is an iconic emblem of the Swiss Alps. It is also a great place for sledding. There is also a town called Zermatt which is famous for skiing and mountaineering. Hiking to various sites is also adorable.

Swiss chocolate and Swiss cheese are the two popular food in Switzerland. It also produces the world's famous clocks and watches.

I think the most beautiful lake in Switzerland will be Riffelsee. Photos of the river show us how clear it is and that you can see your own reflection in it. The Gomergant Rahn narrow-gauge railway that serves a lot of tourists every day is just a 10-minute walk. Hiking and mountain climbing make the country a popular vocational destination for every season.

I think Switzerland is a great place. I hope I can visit there one day.

My Easter Holiday

by P1 Lee Wing Ki

On 21st April, I went on a cruise with my family. I played on the water slide and did some handicrafts. That was so much fun! I had lots of ice-cream too. I love this Easter!

A Great Day

by P2 Sophia Wong Yui Hei

Last week, I went to King's Park Sports Ground to join a rugby competition. It was a series of "Four Rugby" games. In the first game, I ran very fast to reach the try line and put the ball down. No one could tackle me. Everyone in my team cheered for me. I felt excited because it was the first score I got in an open competition.

Afterwards, Dad and my little brother came to the sports ground and took me to have a great dinner. I had my favourite dessert "chocolate lave cake". It was a very happy Sunday.

My teachers

by P2 Yuen King Yin Clement

Dear Trevor,

How are you? I am writing a letter to tell you about my teachers in Chan's Creative School.

My Chinese teacher is Miss Lai. She has very good knowledge of Chinese. I like her to teach me how to do Chinese composition. My English teacher is Miss Leung. She is very kind. Her English is awesome. English is my favorite subject. My Mathematics teacher is Miss Lung. She can make difficult questions become easy. My Visual Arts teacher is Miss Wong. With her help, I can do many different drawings. I love learning in my school.

Can you tell me about your teachers? Please write soon.

Yours,
Clement

My Easter Holiday

by P4 Ho Chun Wing Tango

The night before the trip, I could not sleep well because I felt extremely excited. I had a six-day cruise trip with my mother.

World Dream is one of the ten biggest cruises in the world. It has 3,800 rooms in 20 storeys. There are many entertainment facilities on the cruise such as a theatre, swimming pools, a sport centre, a VR theatre, games centre etc. What I like most is the swimming pool because it has a long slide and hot spring. I could also enjoy sun bathing on the deck.

The cruise arrived in Okinawa on the third day afternoon. We went sight-seeing in Naha and bought some souvenirs. Then we landed on Miyako Island on the fourth day. I ate a Yoshinaya beef bowl. It tasted really good and much better than the one we had in Hong Kong.

After two-day ashore sight-seeing, the cruise started to head back to Hong Kong. I found that the ocean is really big and the cruise just looks like a toy boat in the sea. I hope I can go on a cruise trip again soon and with my friends next time.

Easter holiday at Gui Lin

By P6 Megan Chan

In this Easter holiday, I went to Gui Lin with my family and schoolmates. We stayed there for 6 days, from 20th to 25th April 2019. In this trip we did so many things that I have never done before. Let me tell you what we did.

Day 1

We arrived at HK West Kowloon train station by bus early in the morning. Then we boarded on the high speed railway. In 3 hours, we arrived at Gui Lin. Then we checked in at an inn. The room was nice and tidy with a good view. Although it was not very beautiful with lots of facilities but we liked it. At night, we went to the two rivers and four lakes. The lakes and rivers were very beautiful. It was a good start.

Day 2

We went to the Long Ji Terraces in the morning. It was far away from our inn, so we took a car and we spent 1.5 hours on the road. It was still raining when we arrived at the terraces, but it turned sunny when we started to walk. Thank God. The scenery there was amazing! The fields were laid out like a ladder. We took a lot of photos of the fields and some farmers.

Day 3

We went to Yang Shuo today. First we went to Li Jiang and we rode on a boat. We saw some birds demonstrating to us how to catch fish. Then we went to the village of the Dong community where we learnt about their living habit and their traditional handicrafts. It was fun! After that we went on a bamboo raft, but the tour guide cheated us. So, she took us to a beautiful cave for compensation! It was a great but a tiring day.

Day 4

We had a relaxing day. We only went to the Elephant Trunk Hill and the scenery was very nice. Then we went back to the inn and played.

Day 5

We went to Yang Shuo again today and we rode on the bamboo raft for 90 minutes. The place was beautiful. After lunch we went to Jing Jiang Wang Fu. It was a big place and the tourist guide gave us a lot of information about the place.

Day 6

This is the last day and we went to Cha Bo Yuan in the morning to learn about tea. We learnt how to choose and pick tea leaves, and how to make tea as a drink. Gui Lin is a beautiful place, I like it very much! Bye bye Gui Lin!

Modern Technology is our indispensable friend

by P6 Ennis Lam

A microwave oven is a kitchen appliance that is multipurpose, such as cooking, roasting, grilling, baking and toasting. It is fast and efficient.

Its main advantages are first, the cooking time can be reduced to one fourth of the time taken on a gas stove. So, the energy and time are saved! Secondly, when we heat up the food, the utensils are not heated, only the food gets hot. For example, if I heat up my hot chocolate, the chocolate is hot but the mug is not. Isn't that super? Heating frozen food in a microwave oven will take less time too, no defrosting is needed.

Today, a microwave oven has occupied a prominent place in any modern kitchen due to its convenience and time conservation. It has become an unavoidable utility in our society.

by Vania Lee

Modern Technology surrounds us everywhere we go. Let me give you some daily examples. This morning I wanted to have breakfast at a 7-11 convenience store to buy Dim Sum. But I didn't have enough money, so I went to an automated teller machine to get some money. After I bought my breakfast, I put the food into the microwave oven to heat it up. Then I walked back home to enjoy my flat screen TV.

Today is Amy's birthday and I recorded the YV programme with a DVD recorder. I travelled on an electronic train and I used my Octopus card to pay. I listened to some songs on my MP3 player. I called Amy using my mobile phone saying that I was on my way. When I got near her house, I bought a gift for her from a gift shop with a credit card. At the party, we took photos using a digital camera and we had fun. When we went back home, I put the photos onto a digital photo frame.

Modern Technology gives us great convenience, but at the same time we need to have proper self-discipline in using these machines.

Book Recommendations

Diary of a Wimpy Kid

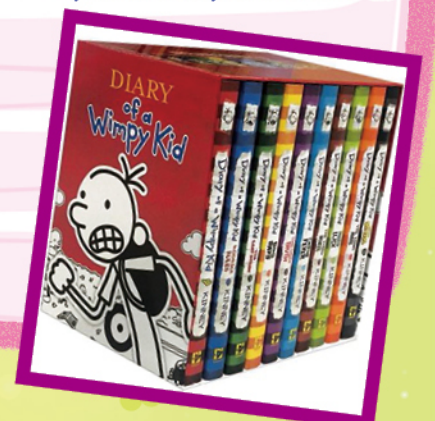

by P5 Kyle Ma

My favourite book is an English book. Its name is 'A Diary of A Wimpy Kid'. This book is about a kid called Greg, his friends and his family. They solve a lot of problems and overcome many difficulties. I like this book because it is very funny especially his brother Rodric and his friend Rowly. I have also watched the movie of this book three times.

I will recommend this book to my friends because it is inspiring and educational. It is perfect for primary school students who are fun loving.

Sir Small and the Dragonfly

by P3 Tiger Wong

My favourite book is 'Sir Small and the Dragonfly'. The author is Jane O'Connor. This book is about a tiny knight, Sir Small who saved a lady from a dragonfly. At first, a dragonfly caught a lady but no one helped her, only Sir Small. He was brave so he went to help the lady. At the end, Sir Small saved the lady with success. They had a banquet and were all happy.

My favourite part is when Sir Small saved the lady and I felt relieved. I learnt to be brave. First, I should not be scared of anything. Secondly, I should try and do things which others are afraid of. Then, I should not care what other people say, just do the right thing.

Before I think I was too nervous. But after reading this book, I became braver. I started to read more difficult English books. Then, I started to help my mum with her cooking. Last, I was brave enough to stay at home by myself.

I hope you like this book too. You can ask me if you wish to read this book.

Look Inside a Hospital

by P3 Anson Chui (picture and words)

The name of the book is 'Look Inside a Hospital'. It is written by Dr. Zoe Fritz and Katie Daynes. The book is about all the things that go on inside a hospital, from visiting patients to having an operation. The main character Josh Hammond met a lot of amazing people who work in the hospital.

I like the part when it tells me about the scans and tests because I can understand the different procedures and the different equipment they use. I also learn about the different sections and departments inside a hospital. It is all very amazing. I also learn to appreciate every staff working in a hospital.

You can find this book from "Book Castle".

Ottoline and the Yellow Cat

by P3 Jeanie Cheng

The title is 'Ottoline and the Yellow Cat'. The author is Chris Riddell. Ottoline likes solving tricky problems and working out clever plans. She lives with Mr. Munroe in Big City. A gang of burglars have taken place in the city and precious lapdogs are disappearing all over town. Ottoline and her best friend Mr. Munroe come up with a clever plan to catch the burglars.

The last part of the book is my favourite. It is about how Ottoline and Mr. Munroe set up a trap to trick the Yellow Cat. They worked together with all the house workers and I think she is very smart and clever. I want to be as clever as her.

I am learning to become a detective. I need to be hard-working, observant and be careful. I have started to read more Chinese and English books in order to learn more things. I have become more observant and speak less.

You can find this book from the public library and book stores, or you can borrow it from me.

Dog Man

by P3 Muji Lui and Praotes Tsang

We wish to recommend this book 'Dog Man' to you. The author is Dav Pilkey. This book is about a police dog and a policeman. They had an accident and in the hospital, the doctor cut off the dog's head and sewed it onto the policeman's body. They became a dog-headed cop who dug into deception, clawed after crooks, rolled over robbers and scampered after squirrels.

We like the part when Dog Man was highly appreciated by his colleagues because of his bravery and perseverance. And we also like the sound effects on the flip pages.

We have learnt to be brave and not give up easily on difficulties and to protect ourselves. We will not get angry very easily when we are blamed by others. We also like the comics.

You can find this book from the school library.

World Book Day

by P5 Sweetie Chiu and Isaac Chow

World Book Day (WBD) is an annual event organized by the United Nations Educational Scientific and Cultural Organization (UNESCO) to promote reading, publishing and copyright. This year, our school held a lot of activities to celebrate WBD.

Two of these were organized just for the upper primary students. The first one was the iPad Challenge. Students of P4 to P6 had to read ten library books of different categories suggested by our Library Studies teacher. The semi-final challenge was held in the classroom where we used iPads to answer questions on the chosen books. The top 5 students of each class represented their own class to join the final challenge which was held in the school hall on 9th April.

All P4 to P6 students gathered in the hall in that afternoon and we were all very excited. Our class did our best and tried to answer all the questions. But in the end we lost. We were sad and disappointed, but we still enjoyed the activity because it was a meaningful experience to us.

The next activity was an author visit by Ms. Carman. We all had a chance to meet and listen to the sharing by one of the recent famous children book writers. She shared with us "How a book is created". She told us how she got ideas in writing and the procedures of publishing a book. It was a precious experience for us and we learnt a lot of skills from her. We also learnt that we should never give up on the things we like.

We have to thank our school for organizing these activities for us to celebrate WBD. We will continue to read and share good books with people around us.
